

**“My major reward is in seeing your loved one and your family reap substantial savings to their nest egg.”**

*C. Steven Nelson  
Medicaid Liaison*

My first Clients were my parents. I helped them save 86% of each monthly nursing home bill. My dad is in a nursing home and could not have done this work himself.

My mom, although still living at home, has many health problems and therefore could not have done this either.

**Help Qualify Your Loved One For...  
Medicaid and Receive Payments  
for their Nursing Home or Assisted  
Living Care Provider.**

**GIVING YOU PEACE OF MIND**

**Continue giving your loved one the care they deserve.**

Your loved one will have financial obligations to their Care Provider. Medicaid and Medicare will help meet those obligations.

---

**But YOU** must seek Medicaid benefits and, until you receive them, **YOU** will be paying the Nursing Home bill month after month.

---

It's amazing how Medicaid financial assistance can help your loved one and your family without draining their finances.

I understand that you and your loved one have worked hard all your life to build a nest egg. You should not have to worry about your loved one's or your own savings at this time in your life.

**Providing assistance to qualify your loved one for Medicaid from Start to Finish.**

### **What I do:**

- I Understand** results are important to you.
- I Determine** if your loved one should seek Medicaid Assistance based on your family's situation.
- I Gather** and organize all information needed for qualification.
- I Advise** you on financial rearrangements and help accomplish those rearrangements using a lawyer, as needed.
- I Submit** the Medicaid application.
- I Interface** with Medicaid personnel until your loved one is qualified for Medicaid.
- I Work** with Medicaid personnel minimizing the time it takes to get approved so that the Nursing Home/Assisted Living Care Provider is reimbursed as soon as possible.

**Providing advice and doing all the legwork to get your loved one qualified to receive the money they deserve from Medicaid.**
